1-2 I also want to show the "unanswered" value for the particular exam1 record on the interface. If exam1 "answer1" is left blank by an examiner and exam2 "answer1" is answered by an examiner, the user should see the following in an output box: "Answer 1 for exam1 was blank. Please answer the question for exam2". I'm struggling with the following code: public partial class C2 : System.Web.UI.Page { public int TotalExamAttempts { get { var db = new NorthwindDataContext(); var allExams = from e in db.Exams where e.ExamID == 1 select e; return allExams.Count(); } } protected void Page_Load(object sender, EventArgs e) protected void Button_Click(object sender, EventArgs e) Random r = new Random(); int randomExamNumber = r.Next(allExams.Count()); int randomAttempt = r.Next(allExams.Count()); var examAttempt = allExams.ElementAt(randomAttempt); examAttempt.ExamID = 1; examAttempt.QuestionID = 1; examAttempt.Answer = "";

allExams.RemoveAt(randomAttempt); try Response.Red 82157476af
